

Creating and Living In Your Ideal Future State – A Three-Step Process of Purposeful Creativity, Innovation and Transformation

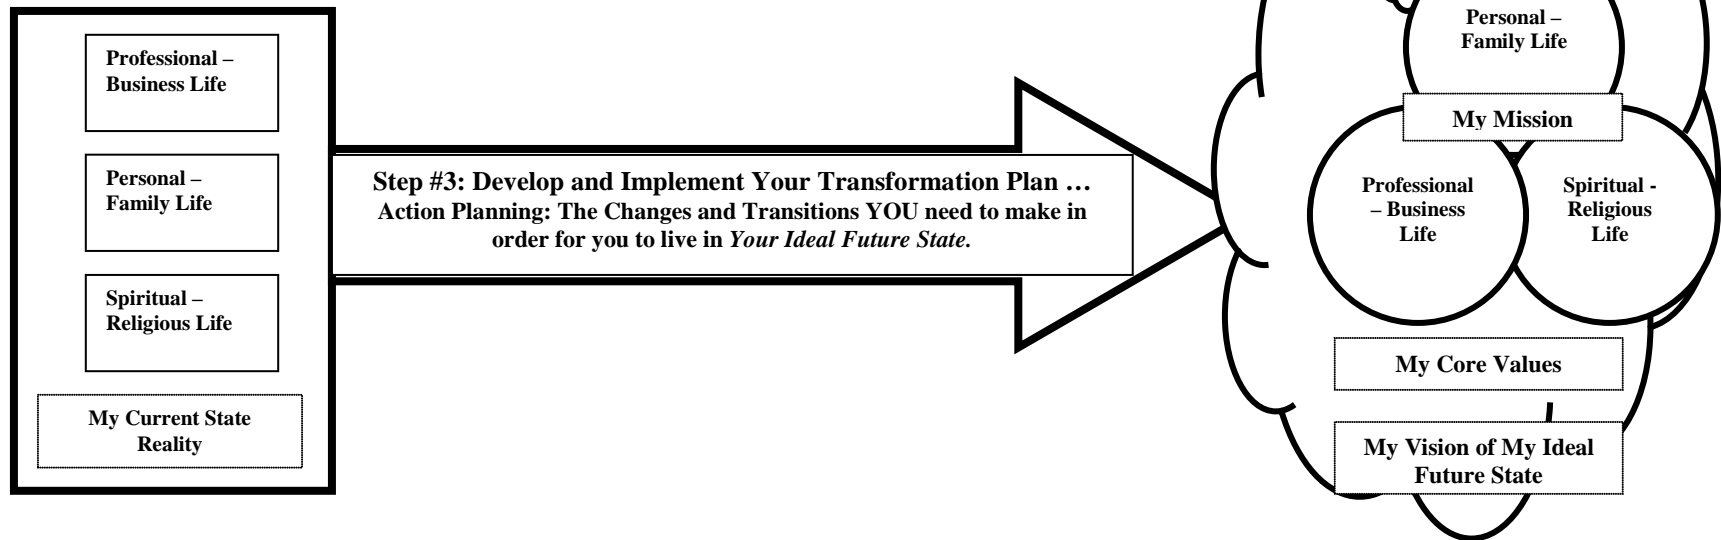

“Begin with the end in mind.”

Steven Covey

Step #2: Assess and Clarify Your Current State Reality:

(1) Assess and confirm your current state reality, including the outcomes you are experiencing. (2) Using the results from Step #1, identify the gaps and decide what will need to change...to be different...in order for you to experience the life you desire and intend to live. Maxim: The life you currently experiencing is perfectly designed to give you the life...the outcomes...you are getting.

Step #1: Create Your Ideal Future State:
Creating the life that you desire and intend to live.
